CHAIRPERSON

## Bulletin 3081-17

**Date:** October 18, 2004

**To:** Vendors  
Vendors Representatives  
Executive staff  
All Authorized Distribution Agents

**From:** Michigan Liquor Control Commission

**Subject:** E-Quote

The E-Quote internet system for liquor vendors has been moved to a new internet server, therefore there will be a new URL internet address and a new JInitiator software version is required.

The new URL is as stated below and is ready to be used:

<http://www2.dleg.state.mi.us/forms90/f90servlet?config=LPQ>

The old ports were 7777 for the http port and 9001 for the Form engine. The new server will use port 80 only – the default http port. A new version of JInitiator is required: 1.3.1.13. It will download automatically if not already installed, or CDs with the software on them are available if desired. This may be the preferred method of installation on dial-up systems.

The old version of JInitiator is 1.1.8.16 and is not automatically uninstalled. The old site will still work until November 1, 2004, even if the new JInitiator is installed.

Two differences between the old and new:

1. The form border color on the old system is blue, the new system is green.
2. Vendors were required to logon to the database to run their product reports on the old system. The new system will logon automatically.

Again, the effective date for shutting down the old web site address is November 1, 2004.
